The Genesis of a Musical Enigma

The concept of fusing Dylan's introspective folk with Maiden's thunderous metal was the brainchild of Swedish musician and producer Thomas Steinbeck. Steinbeck, a longtime fan of both artists, recognized the profound connection between their music, despite their apparent stylistic differences.

"I was drawn to the raw emotion and timeless themes that both Dylan and Maiden convey in their songs," Steinbeck explains. "I felt that by bringing their music together, we could create something truly unique and unforgettable."

A Harmonious Alliance

To bring his vision to life, Steinbeck assembled a stellar cast of musicians, including acclaimed session drummer Simon Phillips, Grammy-winning bassist Tony Levin, and guitar wizard Dirk Verbeuren. Together, they embarked on a meticulous process of reimagining Dylan's iconic songs through the lens of heavy metal.

The result is a collection of 50 tracks that seamlessly blend the acoustic intimacy of folk with the electrifying energy of metal. Dylan's introspective lyrics gain a new dimension when thunderous guitars and pounding drums propel them into the realm of the epic.
