### Historical Context:

The rise of Nazi Germany and the outbreak of the war in Europe created a profound sense of urgency among the world powers. The United States, initially hesitant to intervene directly in the conflict, gradually realized that the threat posed by the Axis forces could not be ignored. The Soviet Union, on the other hand, had long been suspicious of Western intentions and was wary of any alliance that might limit its own expansionist ambitions.

### **The Origins of the Alliance:**

Despite their differences, the United States and the Soviet Union found common ground in their opposition to Nazi Germany. In June 1941, Nazi forces invaded the Soviet Union, prompting a stunning reversal in Soviet policy. The Soviets now desperately needed the United States' industrial and military support, while the United States recognized the need to bolster the Soviet Union's resistance to the Nazis.

### **The Uneasy Partnership:**

The alliance between the United States and the Soviet Union was fraught with tension and mistrust. The two superpowers had vastly different goals and ambitions, and they often clashed over the conduct of the war. The United States sought to establish a postwar world based on democratic principles and collective security, while the Soviet Union aimed to expand its sphere of influence in Eastern Europe.

### **The Lend-Lease Program:**

Despite their differences, the United States and the Soviet Union collaborated in a number of ways during the war. The most significant of these was the Lend-Lease Program, through which the United States

provided the Soviet Union with billions of dollars worth of equipment, supplies, and food. This aid played a crucial role in the Soviet Union's ability to resist the Nazi invasion.

### **The Tehran and Yalta Conferences:**

As the war progressed, the leaders of the United States, the Soviet Union, and Great Britain met at several conferences to discuss the conduct of the war and the postwar world. At the Tehran Conference in 1943, they agreed on a strategy for defeating Nazi Germany and discussed plans for the future of Eastern Europe. At the Yalta Conference in 1945, they reached a consensus on the division of Germany and the creation of a new international organization, the United Nations.

### **The Demise of the Alliance:**

The alliance between the United States and the Soviet Union survived the war, but it did not last long after the defeat of the Axis powers. As the Cold War began, the two superpowers found themselves on opposite sides of a new ideological divide. By 1949, the alliance had collapsed, and the world was once again divided into two hostile blocs.
