Clarke argues that campus radicalism is a serious threat to our nation's security, our economy, and our future. He shows how radical ideology is spreading on college campuses across the country, poisoning the minds of our students and creating a hostile environment for free speech and open inquiry.

Clarke identifies the key players in the campus radical movement, from the postmodernists to the Marxists to the social justice warriors. He explains their tactics, from safe spaces to microaggressions to trigger warnings. And

he shows how these tactics are being used to silence dissent and create an atmosphere of fear and intimidation on campus.

Clarke also offers a plan for how to fight back against campus radicalism. He calls on students, parents, faculty, and administrators to stand up for free speech and open inquiry. He urges them to challenge radical ideology and to create a more tolerant and inclusive environment on campus.

Defend Against All Enemies Campus is a must-read for anyone who is concerned about the future of our nation. It is a powerful call to action to defend our schools from the threat of campus radicalism.
