

# How Trump Is Making Black America Great Again

By [Author's Name]

In his book, "How Trump Is Making Black America Great Again," [Author's Name] argues that President Trump's policies have had a positive impact on the black community. He cites data showing that black unemployment has fallen to record lows, that black wages have risen, and that black homeownership rates have increased.

[Author's Name] also argues that Trump has taken steps to improve the criminal justice system, which has disproportionately impacted black Americans. He points to the First Step Act, which Trump signed into law in 2018, as an example of Trump's commitment to criminal justice reform.

The book has been praised by some conservative commentators, who argue that it provides a much-needed counterbalance to the negative narrative about Trump and race. However, the book has also been criticized by some liberal commentators, who argue that it ignores the many ways in which Trump's policies have harmed black Americans.

## **The Evidence**

[Author's Name] provides a wealth of evidence to support his claims. He cites data from the Bureau of Labor Statistics, the Census Bureau, and the Department of Justice.

For example, [Author's Name] points to the fact that the black unemployment rate has fallen from 7.4% in January 2017 to 5.9% in January 2020. This is the lowest black unemployment rate on record.

[Author's Name] also notes that black wages have risen under Trump. According to the Bureau of Labor Statistics, the median weekly earnings of black workers increased by 3.5% in 2018. This is the largest one-year increase in black wages since 2000.

Finally, [Author's Name] points to the fact that black homeownership rates have increased under Trump. According to the Census Bureau, the black homeownership rate increased from 40.6% in 2016 to 42.2% in 2018.

## **The Criminal Justice System**

[Author's Name] argues that Trump has taken steps to improve the criminal justice system, which has disproportionately impacted black Americans. He points to the First Step Act, which Trump signed into law in 2018, as an example of Trump's commitment to criminal justice reform.

The First Step Act is a bipartisan bill that reduces mandatory minimum sentences for certain nonviolent drug offenses. It also expands early release programs and provides more funding for prisoner rehabilitation programs.

[Author's Name] argues that the First Step Act is a significant step forward in criminal justice reform. He notes that the bill has been praised by both Republicans and Democrats.

## **The Critics**

The book has been praised by some conservative commentators, who argue that it provides a much-needed counterbalance to the negative narrative about Trump and race. However, the book has also been criticized by some liberal commentators, who argue that it ignores the many ways in which Trump's policies have harmed black Americans.

One of the most common criticisms of the book is that it ignores the fact that Trump has made many racially insensitive statements. For example, Trump has referred to African countries as "shithole countries" and has said that there are "very fine people on both sides" of a white supremacist rally.

Another criticism of the book is that it ignores the fact that Trump's policies have disproportionately harmed black Americans. For example, Trump's tax cuts have benefited wealthy Americans at the expense of low-income Americans, who are more likely to be black.
