The economy is stagnant, unemployment is high, and poverty is widespread. Corruption remains endemic in government and the state-owned enterprises. And the ruling African National Congress (ANC) is deeply divided.

In this book, author [Author Name] assesses Ramaphosa's presidency and the challenges facing South Africa. He argues that Ramaphosa is a well-intentioned leader who is committed to reforming the country. But he also notes that Ramaphosa faces a number of obstacles, including the ANC's

internal divisions, the legacy of corruption, and the global economic slowdown.

Ultimately, [Author Name] argues that it is too early to say whether Ramaphosa will be able to save South Africa. But he concludes that Ramaphosa is giving the country its best chance for a better future.

### **\*\*Key Challenges Facing Ramaphosa\*\***

Ramaphosa faces a number of challenges in his efforts to reform South Africa. These challenges include:

- **The ANC's internal divisions:** The ANC is deeply divided between Ramaphosa's supporters and those who support his rival, Ace Magashule. This division has made it difficult for Ramaphosa to implement his reforms.
- **The legacy of corruption:** Corruption is endemic in South Africa, and it will take time to root it out. Ramaphosa has made some progress in fighting corruption, but he has also been criticized for not doing enough.
- **The global economic slowdown:** The global economy is slowing down, and this is having a negative impact on South Africa's economy. Ramaphosa has introduced a number of measures to boost the economy, but it is unclear whether these measures will be enough to offset the global slowdown.

### **\*\*Ramaphosa's Achievements\*\***

Despite the challenges he faces, Ramaphosa has made some progress in his efforts to reform South Africa. These achievements include:

- **Passing the Public Finance Management Act:** This act gives the National Treasury more power to oversee the finances of state-owned enterprises. It is a key step in Ramaphosa's efforts to combat corruption.
- **Establishing the Presidential Commission on State Capture:** This commission is investigating allegations of state capture, which is the illegal use of public resources for private gain. The commission's findings could lead to the prosecution of corrupt officials.
- **Improving relations with the international community:** Ramaphosa has made a number of trips abroad to improve relations with other countries. He has also hosted a number of international summits in South Africa.
