step by step guide

MACRAME KNOTS INFORMATION SHEET

A simple guide on how to create the basic macrame knots for beginners!

Gathering Knot

Double and wrap strands together to make knot

Half Knot

Similar to the full knot of tying shoelaces, except there are two left and two cords in between. The left hand cord is placed on top and right hand cord is placed behind.

Square Knot

Start with a regular half knot and the left hand cord is placed at the top and right hand cord is placed behind. Then make a reverse half knot (right hand cord on top and left hand cord is placed behind). Continue to do this in alternating directions. Design should not turn.

Alternating Half Hitches

Only two strands are required for this knot. Wrap left hand cord around the right hand cord from front to back, and then through the loop. Do the same with the right hand cord and continue to alternate directions.

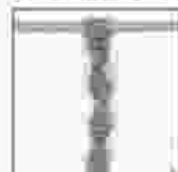

Lark's Head

Basic starter knot to allow you to make a ring or cord

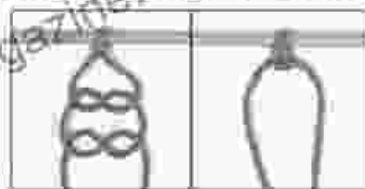

Half Knot Spiral

When you continue to make half knots, it will naturally begin to turn creating a spiral design.

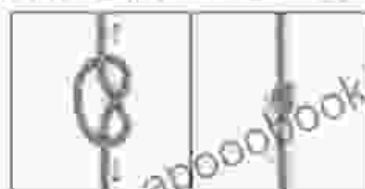

Bow Knot

Same as the Square Knot, but with three cords in between. Only two strands are wrapped around each other in each step. Design should not turn.

Overhand Knot (Regular Knot)

Only two strands are required. Simply wrap one strand around the other.
